valenteone™ Launches New Portfolio Website!

Luxembourg, November 02, 2007: valenteone.com is the portfolio website of Jorge Valente, a Luxembourg-based Art Director and Graphic Designer, working for Millenium Advertising Agency for over 7 years now.

Visitors to the site will view samples of the work of this young but promising designer, who has had the chance to work for a broad range of international and national companies such as Cordaid (NL), Skoda (DE), LuxairTours (LU) and Valorlux (LU) - the popular Valorlux shopping bag is one of Jorge's works.

This newly designed website www.valenteone.com was coded by hand in Adobe Dreamweaver (mostly xhtml and css) entirely by Jorge. It was designed to be user-friendly and standard compliant. Additionally, contact information is provided, which makes it extremely easy to get in touch with the Designer.

At the occasion of the launch of the website, a small competition will allow visitors to win the World-Aids-Day-T-shirt designed by Jorge.

For more information and to view samples of his work, please visit www.valenteone.com.

Feel free to contact Jorge if you need more high resolution print samples.
